

Congressional Edition Volume 5416

By Professor United States Congress

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1909 Excerpt: .along one content. Brecciation and later mineralization have been noted as quite common in the district. We have in the Philippines great quantities of black sand, which is found to contain hornblende, pyroxene, magnetite, ilmenite, rutile, platinum in small quantities, and not inconsiderable percentages of gold. The gold is free, but in so finely divided a state that the method of recovery will be largely a physical one. Experiments are now being carried on here by the chemical division, and in the field some New Zealand operators are studying this material. Tellurium was identified by this division some time ago. It is said by a reputable engineer of Benguet Province to occur in the characteristic form which it assumes in Colorado; that is, in fine streaks and stringers, Irregular in the gangue. There does not seem as yet to be any very important development of this...
