Molecular Press. Paperback. Book Condition: New. Paperback. 370 pages. Dimensions: 8.3in. x 5.5in. x 0.8in. This is a book on reckless writing and careful reading, on invention and recognition. Its about how people find meaning and how we pass it on or lose it. The political expectations that drive it are inherited from religion; it tracks the chiliastic, digital divide between quality and quantity in the decades between the fall of the Berlin Wall and the receivership of democracy, venturing well beyond the authors stamping ground in poetry and translation, into philosophy, into linguistic and arithmetical pattern recognition, and into the merits and pitfalls of machine code as an aid to conversation. Mathematics and physics are admired from a distance, over the wall of algebra. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
