Development of Tools to Represent Design Procedures (Classic Reprint)

By David A Gebala

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Development of Tools to Represent Design Procedures Abstract This paper is based upon the premise that in practice, design procedures are rather methodical and can therefore be studied and improved. We present model-based approaches toward understanding such design activities in order to improve design practices. Several modeling methodologies are presented and compared on their ability to capture relevant information about design activities and their ability to provide insight into the performance of design processes. A detailed description of these models and examples of each are provided for comparison. These models contribute significantly to our understanding of current design practice and yield to analytical tools which facilitate formulation and implementation of improved procedures. In the course of the discussion, limitations of the currently used models are identified, and an enhanced representation is proposed to overcome these limitations. Introduction International competition has heightened the need to develop high quality products which can compete in the global marketplace. As a result of this increased competition, the pace of product development has quickened, forcing manufacturers into an era in...
