KLEE

Taschen GmbH. Hardback. Book Condition: new. BRAND NEW, Klee, Taschen, Susanna Partsch, Thinking eye: A unique language of symbols, literature, and light With meticulous theories and many thousands of paintings, drawings, and watercolors, Paul Klee (1879-1940) is considered one of the most cerebral and prolific leaders of 20th century European art. Though typically small in scale, his works are remarkable for their sophisticated thought and meticulous nuances of line, color, and tonality. Klee's stylistic formation was shaped by early affiliation with the German expressionist group Der Blaue Reiter and, in particular, by a 1914 trip to Tunisia which transformed his use of color. After the war, he taught at the esteemed Bauhaus school, where his lectures, like his emerging practice, emphasized the symbolic potential of shade, line, and geometry. Klee was also inspired by Cubism, poetry, music, literature, language, and the simplistic power of children's art. Famed for his simple stick figures, he often combined the appearance of untutored naivety with rigorous composition and intellectual significance. This book provides a selection of key Klee works to introduce his style and influence. From sun-drenched landscapes to enigmatic wordplay, discover a world at once simplistic, symbolic, and dazzlingly colorful. About the Series: Each book in TASCHEN's Basic Art series features: a detailed chronological summary of the life and oeuvre of the artist, covering his or her cultural and historical importance a concise biography approximately 100 illustrations with explanatory captions ".
