Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. The Billionaire s Son (Fiction) details the NextGen computer malware called BLACK-PROMETHeU\$, a polymorphic, trans-gender, visible, yet highly invisible, extremely mobile, airborne Russian Mafia new variant that threatens the future of all Western Civilization. It kicks the CIA s ass! Russia s intent: To destroy the American dollar, in the summer of 2015, so Moscow can re-birth the gold standard and also postpone America s 2016 presidential election. BLACK-PROMETHeU\$ gets very personal when the white-hat CIA cyber-security expert, Tom Belton, learns the black-hat hacker (Howard Funk) is the same man he arrested when serving in the military police, back in 1968. Funk, Belton, remembers spent 20 years at hard labor, at Ft. Leavenworth, after his dishonorable military discharge, all because of an inquisitive low ranked military policeman. Now, their paths are about to cross again. One of these men will soon die, in a world where white is often perceived to be black, and where black is often times looked upon as being white. This book reads like tomorrow s top news story! It uses current day news media headlines as background reality, current day politics, and even the recent U.S.A. policies regarding America s recognition of Cuba, all while BLACK-PROMETHeU\$ is scheduled to strike at the heart of the CIA in the summer of 2015. This novel s author actually works in a U.S. government cyber security operations center.
